Cumulative H01 + A02 + A05 + A06 source same code and runtime command

PGO is reproducible by other builders regenerate for exact source and compiler use a representative pinned training recipe

LTO evaluation

GCC 13.3 LTO build cross-file optimization binary: 3.57 MB to 2.95 MB 17.47% smaller

Five-pair median 55.75 s to 55.32 s 1.21% gain 5 of 5 outputs passed

REJECTED below 2% practical gate

PGO evaluation

Instrumented build full public-corpus training 1:20:21 wall time 163 profile files

Profile-use build mismatch is an error binary: 3.57 MB to 2.78 MB 22.15% smaller

Five-pair median 55.89 s to 55.20 s 1.20% gain 5 of 5 outputs passed

REJECTED below 2% practical gate
